Personal Statement

With over seven years of experience delivering efficient, scalable web applications using React, Next.js, Astro, and TailwindCSS. I am skilled in both independent and collaborative development with a focus on performance, maintainability, and user experience.

Skills

Frontend: React, Next.js, TailwindCSS, Astro, Styled Components, SASS, Framer Motion, React Native

Backend / DevOps: GraphQL, REST APIs, Strapi CMS, WordPress, PHP, CI/CD, AWS, NodeJS, NGINX

Testing / Tools: Jest, Git, Figma

Soft Skills: Communication, Mentoring, Adaptability, Time Management

Experience

Awaze VR – Software Engineer

[Hybrid] Feb 2025 – Present

Core Skills: React, Next.js, TypeScript, Styled Components, Experimentation, Jest, Figma

- Improve the core Search experience through testing and experimentation.
- Develop features in **React**, **Next.js**, and **TypeScript** to expand Awaze's product offering.
- Run several experiments leading to an average 2% increase in user conversion and click through.
- Own a redesign project of a core search component.
- Mentor peers through the use of **pair programming**.
- Organise team bonding events.
- Communicating with various stakeholders when managing projects

THG Nutrition – Software Engineer

[Remote] Jan 2024 – Feb 2025

Core Skills: Astro, GraphQL, TailwindCSS, Figma

- Developed a multi-tenant platform from the ground up using **Astro**.
- Used **TailwindCSS** for rapid UI prototyping and **GraphQL** for smaller, targeted payloads.
- Optimisation across the board led to a double-digit performance increase.

THG Ingenuity – Software Engineer

[Remote] Jan 2022 – Dec 2024

Core Skills: *React, Next.js, Styled Components, SASS*

- Owned several projects, talking to all various stakeholders.
- Successfully integrated several new clients into two e-commerce platforms using **React, Next.js, Styled Components, Java** and **SASS**.

Tone Agency – Web developer

[Hybrid] Feb 2019 – Jan 2022

Core Skills: *React, Next.js, TailwindCSS, SASS, WordPress, PHP*

- Created a project management tool using **React** and **Next.js** using several third-party APIs.
- Successfully delivered over 10 **WordPress** projects with custom themes and plugins.
- Delivered mini games using frameworks such as Phaser.
- Created microsites and landing pages using **React, Next.js** and **TailwindCSS**.
- Worked with several high-profile clients such as *William Hill, Rank Group* and *Unibet*.

Projects

HRC Podiatry

April 2025 – Nov 2025

Core Skills: *Astro, TailwindCSS, REST API's, StrapiCMS, Figma*

- Built an full-stack website using **Astro, TailwindCSS** and **Strapi CMS**
- Used **CI/CD** pipelines using docker and github to deploy changes to production in under 5 minutes.
- Setup a Hostinger VPS to host the website

NAPSA

April 2025 – Nov 2025

Core Skills: *React, Next.js, TailwindCSS, GraphQL, StrapiCMS, AWS, Figma*

- Replatformed the NAPSA website using **React, Next.js, GraphQL** and **TailwindCSS**.
- Migrated data to and built a **Strapi CMS** for client ease-of-use.
- Used **CI/CD** pipelines using docker and github to deploy changes to production in under 5 minutes.
- Provisioned **AWS** EC2, ECS, and S3 for hosting and asset storage, then migrated over to a Hostinger VPS due to client requirements.
- Achieved a 40% improvement in overall performance scores compared to the legacy WordPress site.

Education

UCLan

Sept 2017 - June 2019

Foundation Degree in Computing

Burnley College

Sept 2015 - June 2017

A Levels in Computer Science, ICT, Music Technology
